ABOUT ME

I am a Full-Stack Software Developer with a passion for technology and solving real-world problems through software. I have experience developing web applications, integrating systems, and managing modern infrastructure using Kubernetes and Docker, working with technologies such as PHP, JavaScript, Python, Laravel, Vue.js, and SQL databases.

I am known for my ability to quickly learn new technologies, adapt to new challenges, and deliver reliable, scalable solutions that meet both user and business needs.

I am currently seeking a new professional opportunity and am available to start immediately. I am looking to join a team where I can continue to grow professionally, contribute my technical expertise, and help build innovative, high-impact software solutions.

EDUCATION

Escola Superior de Tecnologia e Gestão, Politécnico de Leiria <i>Técnico Superior Profissional - Tecnologias Informáticas</i>	Sep 2021 — Jun 2023 <i>Leiria</i>
Escola Secundária Dr. Augusto César da Silva Ferreira <i>Técnico de Informática - Sistemas</i>	Sep 2018 — Jul 2021 <i>Rio Maior, Santarém</i>

WORK EXPERIENCE

Full Stack Developer Setwin - Business Solutions, Lda	Jun 2023 — Present <i>Leiria, PT</i>
- Managed Kubernetes clusters (QA and production) hosting 10+ applications, using Argo CD, Helm, and Kustomize for GitOps deployments, and led team training. - Developed web applications with Vue.js/Nuxt (frontend) and Laravel/Django (backend), following best practices. - Built data pipeline and automation systems with Python, Celery, Redis, and n8n for large-scale processing and integrations, deployed on Kubernetes. - Customized CEGID Primavera ERP and developed tailored WordPress themes and plugins. - Supported legacy customer applications, developed with PHP. - Collaborated with cross-functional teams to deliver scalable, high-quality solutions, focusing on performance, reliability, and maintainability.	
Consultant Deloitte Portugal	Sep 2021 — Jun 2023 <i>Remote</i>
- Delivered consulting and development services within the Core Business Operations (Financial Services) practice, as part of the BrightStart program (TeSP + internship). - Developed and implemented solutions on the Guidewire PolicyCenter (v10) platform for a North American P&C insurance client, using Gosu/Java. - Collaborated in Agile (Scrum) teams, contributing to sprint planning, development, testing, and delivery of business-critical features. - Worked with industry-standard tools including Jenkins (CI/CD), Jira (project tracking), and Confluence (documentation). - Supported system integrations and enhancements aligned with insurance business processes.	

PROJECTS

AI CMS (PyCon Portugal 2025 Project)	https://github.com/afonsosantos/ai-cms
- Built an AI-powered CMS using Django, developed during PyCon Portugal 2025. - Integrated the DeepSeek API to generate HTML/CSS pages dynamically from user prompts. - Focused on simplifying content creation by allowing non-technical users to generate complete web pages with minimal input. - Designed and implemented backend logic, API integration, and content generation workflows.	

EXTRACURRICULAR ACTIVITIES

Competitor – Electric Vehicle Rally Championships (CPNE – Portuguese New Energy Championship) 2025 — Present
--

- Participate in national electric rally competitions, focused on precision driving, timing, and energy efficiency.
- Plan race strategy, including route management and maintaining accurate target times across stages.
- Work under pressure in real-time conditions, requiring focus, consistency, and quick decision-making.

CERTIFICATES

LFS158: Introduction to Kubernetes, The Linux Foundation	Aug 2025
WHM Administration Certification Exam, cPanel	Jul 2024
cPanel Professional Certification Exam (CPP), cPanel	Jul 2024
Microsoft Certified: Azure Fundamentals (SC-900), Microsoft	Jan 2023
AWS Cloud Practitioner Essentials, AWS	Dec 2022
Microsoft Certified: Azure Fundamentals (AZ-900), Microsoft	May 2022
IT Essentials, Cisco	Apr 2021

SKILLS

- Programming Languages: PHP, JavaScript, Python, SQL
- Frameworks & Libraries: Vue.js, Nuxt, Laravel, Django
- Frontend: Tailwind CSS, Responsive Design
- Databases & Caching: MySQL, SQL Server, Redis
- DevOps & Infrastructure: Kubernetes, Docker, Linux, Windows, Bash
- GitOps & CI/CD: Argo CD, Helm, Kustomize, Jenkins
- Automation & Integration: Celery, n8n, REST APIs, API Integration
- AI & APIs: OpenAI API, DeepSeek API
- Platforms & CMS: WordPress, CEGID Primavera
- Methodologies: Agile, Scrum
- Other: System Integration, Automation, Team Leadership, Project Coordination
